

Salt Rheum

The agonies of those who suffer from severe salt rheum are indescribable. The cleansing, healing, purifying influences of Hood's Sarsaparilla are unequalled by any other medicine. "I take pleasure in recommending Hood's Sarsaparilla, for it has done wonders for me. I had salt rheum very severely, affecting me over nearly my entire body. Only those who have suffered from this disease in its worst form can imagine the extent of my affliction. I tried many medicines, but failed to receive benefit until I took Hood's Sarsaparilla. Then the disease began to subside, the

Agonizing Itch and Pain

disappeared, and now I am entirely free from the disease. My blood seems to be thoroughly purified, and my general health is greatly benefited." LYMAN ALLEN, Sexton N. E. Church, North Chicago, Ill.
"My son had salt rheum on his hands and the calves of his legs, so bad that they would crack open and bleed. He took Hood's Sarsaparilla and is entirely cured." J. B. STANTON, Mt. Vernon, Ohio.

From 108 to 135

"I was seriously troubled with salt rheum for three years, and receiving no benefit from medical treatment I decided to try Hood's Sarsaparilla. I am now entirely cured of salt rheum; my weight has increased from 108 lbs. to 135." MRS. ALICE SMITH, Stamford, Conn.
If you suffer from salt rheum, or any blood disease, try Hood's Sarsaparilla. It has cured many others, and will cure you.

THE PEOPLE'S PARTY.

An Address From the Territorial Central Committee.

THE FOLLY OF DIVISION.

A Party for the People, Devoted to the People's Interests—The Territory's Welfare.

HEADQUARTERS TERRITORIAL CENTRAL COMMITTEE OF THE PEOPLE'S PARTY, SALT LAKE CITY, October, 1888.)

To the County Central Committee of the People's Party:

Gentlemen—As the time is approaching for the election of a delegate to Congress, we deem it wise and proper to address you briefly on the political situation in this Territory.

The People's Party stands upon the platform of principles which has sustained it heretofore. They are founded in the fundamental truths that underlie our national system. They are imperishable and indestructible.

We see no reason to turn from them or to make any change in the character or the name of the organization which has

SUCCESSFULLY MAINTAINED THEM

for many years. The People's Party is intact, and should be preserved in its integrity until the people of Utah have obtained their full rights and privileges as American citizens. There is ample room upon its platform for every citizen of Utah who venerates the Constitution of our country and is willing to obey the laws made in pursuance thereof, and who desires the triumph of local self-government, no matter what may be his opinions or affiliations upon national issues. It is a party of the people and for the people, and is devoted to the people's interests.

WELFARE OF THE TERRITORY,

to separate himself from the People's Party in order to work for national purposes. Indeed, such a course would be detrimental to local interests, while it would accomplish nothing in the broader political arena.

In past contests our strength has been in our unity. We have not been conquered because we would not be divided. The alleged branches of the national parties in this Territory have each resolved and proclaimed that they will not act on party lines, but work under the name of "Liberals" against the People's Party. They set forth in vigorous words

THE FOLLY OF DIVISION

as Democrats and Republicans.

Under these circumstances, common prudence, if nothing else, would suggest that the members of the People's Party should engage in no movement tending to separate them into other parties or factions, and make no pledges which would prevent their full co-operation with their tried and true friends, in the face of combined hostility against them. Such division would, perhaps, not materially affect the result in the election for Delegate to Congress, but might become disastrous when local issues in the counties and cities shall be at stake. In our opinion the time has not come for the people of Utah to organize under any national name, but every interest and indication urges the necessity of closer union, and more determined action as the party of the people.

THE PARTY NOMINEE.

At the Territorial Convention, Hon. John T. Caine, our faithful and efficient Delegate in Congress, was renominated by acclamation. Let the voters of Utah unite their representatives and rally to the unanimous support of the nominee of the People's Party, and availing all entanglements and attachments that would tend to separate their interests and influence, cling to the party under which they have heretofore fought their political battles and achieved a succession of signal victories.

By order of the Territorial Central Committee.

JAMES R. WINDER, Chairman.

ELIAS A. SMITH, Secretary.

THE UTE COMMISSION.

Their Brief Stay in This City Prior to Resuming Work

Judge J. M. Smith, of Wisconsin; R. B. Weaver, of Arkansas, and F. S. Childs, of Washington, D. C., composing the Ute Commission, are at the Cullen enjoying a brief respite from their labors with the Southern Colorado Utes. The work the commission is engaged in is that of trying to come to some terms with certain bands of Ute Indians now occupying a fertile strip in Southern Colorado, by which the red men will agree to vacate in favor of the whites, who are clamoring for this favored spot.

It is not only the land, however, for which the whites yearn, but all their irrigating water comes through the reservation, and in order to get water onto the land contiguous to the Indian lands, it is necessary to make dams within the reservation. This the Indians will not consent to, and for this reason the commission thinks it advisable to get the Utes to vacate, if this can be done without trouble. The commission proposed that the Indians take up their abode on the Uintah agency in this Territory. The chiefs did not take kindly to this, owing to the fact that there is some ill-feeling between them and the Uintah agency Indians. Several of the chiefs agreed, however, to go to the agency and talk the matter over with the chiefs there, but before they were half way there they backed out, and the commission came on to Salt Lake. They expect to return to the Indian country to-day or to-morrow and hope to meet with better luck this time.

How Jacksonville Got the Fever.

The proposition that all the world loves a lover probably does not hold good on Jacksonville now. The whole yellow fever business is a love affair, or the result of a love affair. McCormick, the man who brought the yellow fever to Jacksonville, was a lover. His

sweetheart was in Tampa, and Tampa was isolated on account of yellow fever. But yellow fever or no yellow fever, McCormick wanted to see his girl; so he managed to pass the cordon and steal an interview with his love. Then he came back to Jacksonville and brought yellow fever with him. Surgeon General Hamilton is authority for this short history of the spread of yellow fever. It is another confirmation of the wisdom of the sage who once declared there was a woman at the bottom of every mischief.—Washington Post.

The value of the real and personal property of California this year, as returned by the local assessors, is \$1,083,333,333, which shows an increase of \$175,213,848 over last year. This is exclusive of the railroads, which foot up about \$50,000,000.

POLITICS AT WHITE HEAT.

A Commercial Traveler's Review of the Situation.

Mr. James Shields, the well-known commercial man, is in Salt Lake on one of his periodical visits. Of course his friends have been "pumping for pointers" ever since his arrival. Summed up in brief, his views on the coming election are as follows: "That Cleveland will carry Indiana is almost beyond doubt, and the way the fight is being waged there is beyond description. There is scarcely a house in the city—business or dwelling—that does not in some way give tokens as to which way its tenants propose to cast their votes. In the windows of all are to be seen the lithographed features of their favorites, and party feeling never before ran so high. In New York Cleveland will be defeated, I believe, and that by the 'T-Backer' Brigade—the working-men. Why, in our factory alone, where we employ several hundred men, Blaine got less than 200 votes four years ago, now they have a Republican club of 400 and over. The true trade fight made by the Republicans in the early part of the campaign has undoubtedly had its effect."

The Indianapolis (Ind.) Express keeps standing the following notices:

"We are authorized to announce that there is no demand with the Express for one of one thousand dollars, to bet that Benjamin Harrison receives a majority of the electoral votes over Grover Cleveland, for President. Stakes to be deposited with National State bank."

We are authorized to announce that there is no deposit with the Express a bill of sale of a stock of merchandise in the State of Indiana, involving \$1,800, to bet against \$1,500 that Benjamin Harrison receives a majority of the electoral votes over Grover Cleveland, for President. The same offer is made that two northern States cannot be named which will cast their electoral votes for Grover Cleveland for President in 1888.

Mr. Jacob Stump has two \$500 bets that Harrison will be elected waiting takers."

INDIANA REPUBLICANS.

Hon. William McKinley Rants a Little.

INDIANAPOLIS, October 25.—An enthusiastic audience of 6,000 gathered to-night in Tomlinson Hall, to listen to a speech by Hon. William McKinley. When the Napoleonic features of the distinguished orator were recognized by the great audience, as he walked down the stage accompanied by ex-Secretary Litchman, he was given an ovation second only to that tendered General Harrison in the afternoon. Brief preliminary addresses were made by Chairman Litchman, whose reference to McKinley as "the ablest champion of protection" brought the big crowd to its feet. Congressman McKinley spoke for nearly two hours, reviewing the tariff and labor questions at length. In the whole review of the tariff matters, he said: "What do you think of an administration that goes abroad to buy blankets for the use of the army to save 30 cents apiece?" (Hisses and cries of "put it out.") "A government that makes its own citizens pay duties at custom houses to support the American government goes abroad to buy foreign productions and evade the duty and give the manufacture of them to foreigners, and take them from our citizens, and to help to maintain a foreign government (cries of "turn 'em out" and "shoot 'em"). This is the second time they have done it, and when their attention was called to it Secretary Endicott wrote a letter in which he said it was his duty to go abroad and buy, if he could save anything to the government of the United States. They very recently changed front on that question. I have before me an order which they issued three weeks ago. Let me read it to you: 'It is hereby directed that hereafter the chiefs of the bureau of the War Department shall cause to be stated in all advertisements for proposals for furnishing supplies needed by the War Department that preference will be given to articles of domestic production or manufacture, including the price of duty thereon fixed by laws.' They made our producers compete with foreign producers, with the duty thereof. But under press of the campaign they have concluded to make a competition with foreign price and with duty thereon. (Laughter.) When we were considering the Mills bill, at the end of every section we offered this proposition: 'provided, however, that if any of these products are made by convict labor they shall pay three times as much duty as government impose upon products made by free labor. The Democrats voted that down at the end of every schedule. The truth is, this administration is very fond of convict labor. (Applause.) The President of the United States made a pocket veto of the convict labor bill; he made a pocket veto of the arbitration bill; and this administration, within the last three months, has gone into the State of Tennessee and bought 1,400 wagons made by the convict labor that pays to the State just 25 cents a day; 1400 wagons for the Indian service of the army. How do you like that up here in Indiana, you men who work in Studebaker's shops, that make wagons? We not only believe that every working-man should be protected not only against convict labor at home, but convict labor abroad, and the underpaid labor of every nation of the world. (Great applause.)"

The worst feature about catarrh is its dangerous tendency to consumption. Hood's Sarsaparilla cures catarrh by purifying the blood.

ROYAL BAKING POWDER

ABSOLUTELY PURE.

For quick raising, the Royal Baking Powder is superior to all other leavening agents. It is absolutely pure and wholesome and of the highest leavening power. It is always uniform in strength and quality and never fails to make light, sweet, most palatable and nutritive food. Bread, biscuits, muffins, cake, etc., raised with Royal Baking Powder may be eaten hot without distressing results to the most delicate digestive organs. It will keep in any climate without deterioration.

Prof. H. A. Mott, U. S. Government Chemist, after examining officially the principal baking powders of the country, reported:

"The Royal Baking Powder is absolutely pure, for I have so found it in many tests made both for that company and the United States Government. 'Because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the same, and the method of its preparation, the Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public.
